Product Description

Product Description:

The smart door lock includes main parts such as a back handle, front single latch, strike plate, 2 mechanical keys, screws, and screwdriver. The front single latch is equipped with fingerprint door knobs that allow you to unlock the door with your fingertips. This feature is especially useful for individuals who have trouble finding or remembering their keys. The fingerprint door knobs provide a more

convenient and secure way to unlock your door.

The smart door lock weighs only 1.1kg, making it lightweight and easy to install. The item dimensions are 5.67 X 2.91 X 0.2 Inches, making it a compact and space-saving design. You can install it on any door without worrying about it being too bulky or taking up too much space.

The smart door lock is recommended for use in various locations such as homes, hotels, offices, apartments, bedrooms, and Airbnb. This smart lock is perfect for individuals who need to grant access to others, such as guests, employees, or renters. You can also monitor who enters and exits your property, giving you greater control over who has access to your space.

In conclusion, the Smart Door Lock product is an excellent investment for anyone who values convenience and security. The fingerprint door knobs provide a hassle-free way to unlock your door, while the compact and durable design ensures that your property is safe and secure. So, if you're looking for an innovative security solution, the Smart Door Lock product is definitely worth considering.

Applications:

Weighing in at just 1.1kg, this fingerprint door knob is lightweight yet sturdy. The polished finish ensures it blends in seamlessly with any decor. The Foxgard T01 Smart Door Lock is made in Guangdong, China, and is built to last.

The T01 is highly recommended for use in a variety of settings, including homes, hotels, offices, apartments, bedrooms, and Airbnb rooms. It is designed to keep your space secure and can be controlled in three different ways: hand control, mechanical knob, and Android.

With the Foxgard T01 Smart Door Lock, you can enjoy the convenience of keyless entry. No more fumbling with keys or worrying about lost keys. Simply use your fingerprint to unlock the door. You can even create multiple fingerprints for different members of your family or employees.

This smart door lock is also ideal for hotels and Airbnb hosts. It allows you to grant access to guests without having to provide them with a physical key. You can easily add and remove guest fingerprints as needed, ensuring the security of your property.

The Foxgard T01 Smart Door Lock is a reliable and efficient security solution for any setting. With its sleek design, keyless entry, and multiple control options, it's the perfect choice for anyone looking for a top-of-the-line smart door lock.

Customization:

The T01 comes with main parts including a back handle, front single latch, strike plate, 2 mechanical keys, screws, and screwdriver. Its item dimensions measure 5.67 x 2.91 x 0.2 inches, making it compact and easy to install. This smart door lock is manufactured in Guangdong, China by Foxgard, a trusted brand in the industry.
